For a spectacular cod fishing trip, Stellwagen Bank in Massachusetts, has proved consistently successful. The average catch for the past 25 years for 6 people has been between 500 lbs. and 1,000 lbs. of Cod, Pollock, Haddock, Halibut, Wolffish and Monkfish. Our best catch ever from "Stellwagen Bank" was 3,500 lbs. for 6 people. Our customers have caught Cod to 79 lbs., Pollack to 44 lbs., and Halibut over 229 lbs. "Stellwagen Bank" has produced cod well over 85 lbs., Halibut over 250 lbs., world-class Pollack and many other World Record catches in recent years. ***In the last 25 years, "Big Fish II" has fished "Stellwagen Bank" more than any other charter boat from anywhere.***

Our "Stellwagen Bank" Cod Fishing Charters are 10-11 hour trips dock-to-dock. The boat ride is normally about 1-1/2 hours each way, leaving about 7-8 hours fishing time. We usually leave the dock at 5:00 a.m. and return after 3:00 p.m.

The best time for cod is March, April, May, June, July, August, September and October. Last year's best total poundage of Cod was during March, April and May. Action remained consistent in June thru November and was excellent in all of fall for those who wanted to fill their freezers for the winter. Cod trips typically catch a variety of excellent eating white-meat fish which could include: Cod, Pollack, Halibut, Wolffish, Monkfish, Cusk, Haddock and other fish. Normally, March and April are 90% Cod -10% other fish. May, June, July, August, September, October and November are about 70% Cod -30% other fish.
